JUNE 2020

ANDROID USERS: Air Command Wireless App WR1-760-2610

NEW PERMISSION REQUIREMENTS FOR ANDROID DEVICES

The recent operating system update to Android 10.0, now requires users to grant permission for Bluetooth connectivity to the Air Command Wireless App. Users will need to follow the detailed instructions below to restore connectivity.

INSTRUCTIONS:

1. Upon opening the app, you will be asked to allow Air Command to access the device location.
2. As required by Android, you will be provided with 3 options:
 - Allow all the times
 - Allow only while using the app
 - Deny
3. You **MUST** select “Allow at all times” to restore connectivity.

For additional information, please contact Ride-Rite Technical Support at 800-888-0650.
